1. Preamble

This document defines the procedures used by Freestyle Canada to:

- Generate the HPP Ranking List
- Select athletes to the National Halfpipe Programs (Groups A & B)
- Select athletes to the National Halfpipe NextGen Program
- Allocate spots to Canadian athletes for the current season in the FIS Halfpipe FIS World Cup competitions

2. COVID Situation

Freestyle Canada is carefully following the evolution of the coronavirus on the global and domestic level and how it may impact obtaining quota and attending events in respect to selection of athletes for the High Performance Program and FIS events. Unless otherwise required by exceptional and unforeseen circumstances related to the impact of the coronavirus, FC will respect these published Selection Criteria as written.

However, situations related to the coronavirus pandemic may arise that require this Selection Criteria to be modified. Any modifications will be made promptly and as often as required following developments that directly impact the Selection Criteria. In such circumstances, any modifications will be communicated to all affected individuals as soon as possible.

Further, situations may arise that do not allow this Selection Criteria to be modified or applied as written due to time constraints or other exceptional and unforeseen circumstances. In such situations, any decision, including nomination decisions, will be made by the individual(s) with decision-making authority, as stated in this Selection Criteria in consultation with the relevant individual(s) or committee(s) (as applicable), and in accordance with the stated performance objectives and selection philosophy and approach as stated herein. Should it be necessary to make any decision in this manner, FC will communicate with all affected individuals as soon as possible.

3. Freestyle Canada's High Performance Program Goal

Freestyle Canada's Mission: To develop athletes in a safe and ethical manner, who win medals at the Olympic Winter Games, the FIS World Championships and X-Games.

Freestyle Canada's high-performance staff will support, prepare and assist identified athletes in achieving their goals through a variety of mechanisms including:

- Gap Analysis which will identify each athlete’s strengths and areas of improvement to prescribe appropriate technical, physical and mental training programs.
- Gaining competitive experience on the International stage where they can hone their tactical and psychological skills

Athletes identified as National World Cup Team have shown evidence, they are on track to win a medal at a major event within four years. These athletes should be able to consistently achieve podium performances at major events and on the FIS World Cup circuit.

Athletes identified in the NextGen Group have shown evidence they are on track to win a medal at a major event within eight years. NextGen athletes should be able to consistently achieve podium performances at FIS NorAm events and be in the top 2/3rds of the FIS World Cup circuit.

4. Freestyle Canada’s High Performance Program Goal

Freestyle Canada’s Mission: To develop athletes in a safe and ethical manner, who win medals at the Olympic Winter Games, the FIS World Championships and X-Games.

Freestyle Canada’s high-performance staff will support, prepare and assist identified athletes in achieving their goals through a variety of mechanisms including:

- Gap Analysis which will identify each athlete’s strengths and areas of improvement to prescribe appropriate technical, physical and mental training programs
- Gaining competitive experience on the International stage where they can hone their tactical and psychological skills

Athletes identified as National Team A & B Group have shown evidence, they are on track to win a medal at a major event within four years. These athletes should be able to consistently achieve podium performances at major events and on the FIS World Cup circuit.

Athletes identified in the NextGen Group have shown evidence they are on track to win a medal at a major event within eight years. NextGen athletes should be able to consistently achieve podium performances at FIS NorAm events.

5. Definitions and Roles

Title	Acronym	Role
Freestyle Canada	FC	Governing body for Freestyle skiing in Canada
Chief Executive Officer	CEO	Top staff member of Freestyle Canada; answerable to the Board of Directors
High Performance Program	HPP	Performance stream within Freestyle Canada

High Performance Director	HPD	Leader of the HPP
High Performance Athlete Development	HPAD	Identified process for developing athletes
Gold Medal Profile	GMP	Identified skills for skiers at various levels of the LTAD
Long-Term Athlete Development	LTAD	Pathway for development of freestyle skiers from grass roots through sport for life
FIS World Cup	WC	Top FIS competition series
FIS NorAm	NorAm (or NAC)	Continental FIS competition series in North America
International Ski Federation	FIS	Governing body for Freestyle skiing internationally
NextGen		Athletes showing evidence of medal potential for the subsequent Olympic Winter Games (up to 7 years ahead)
NextGen B		Athletes put on OTP's radar to watch for the future
Sport Science Sport Medicine	SSSM	Category of performance services for medical, paramedical and applied research aimed at enhancing athlete performance
Own the Podium	OTP	Technical agency who makes recommendations to Sport Canada on the funding for all Canadian sports.
Canada Cup		National competition circuits (SS/HP/BA)
Slopestyle	SS	
Halfpipe	HP	
Big Air	BA	
Tier 1 & 2 Events		See Appendix 1 for explanation
Boosted, Neutral or Diminished Events		See Appendix 1 for explanation
Good Standing		Athletes who have signed their athlete agreements, hold an active FIS license and have made appropriate arrangements to settle any outstanding debts with FC's finance department.
Point Value		All competitions are weighted based on their Tier and Rating. Point Value is a score/number pulled from a value table that reflects an athlete's placing in a specific competition. Please see Appendix 1 for full explanation.

6. National Team Structure

Annually, Freestyle Canada will determine the team size; Freestyle Canada reserves the right to modify the team structure at any time in order to ensure quality programming to achieve the HPP Goals and Freestyle Canada's Mission. Group / Team sizes may change depending on:

- the year of the quadrennial

- depth of athlete pool
- skill level of athletes
- ranking point spreads
- major games strategy
- funding fluctuations.

There are up to three groups of athletes named to the National Team Program. The specific group to which an athlete is named depends on their performance capabilities and potential. The level of funding an athlete receives will be determined on the group to which they are named.

- “A Group” athletes are targeted for Tier 1 (Major events and World Cups) events; as well, they are eligible to receive the highest level of Freestyle Canada High Performance funding support, core program support and Sport Canada Athlete Assistance.
- “B Group” athletes also targeted for, but not guaranteed, entry into Tier 1 events; they also receive enhanced Freestyle Canada High Performance funding, core program funding and Sport Canada Athlete Assistance.
- “NextGen Group” athletes are targeted for NorAm events and may have the opportunity compete in Tier 1 events (earned through their results and overall skill levels). NextGen Athletes benefit from the NextGen core program funding and most will attain Sport Canada Athlete Assistance.

7. Selection Authority and Process

The selection of athletes to participate in the Freestyle Canada’s HPP is the responsibility of the CEO, acting on the recommendations of the HPP SS/BA Selection Committee (the “Selection Committee”).

The High Performance Program Director and relative FC staff coordinate all calculations related to HPP rankings and selections. These calculations are presented to the Selection Committee for their input and consideration. In addition to competition results, HPP coaches will report on each athlete’s skill level, overall progression and commitment to training over the past 12 months.

All team selections are for a one-year period only; the national team will be named by May 15th. FC will strive to maintain gender equity in their HPP selection.

7.1 HPP Halfpipe Selection Committee

Under the authority of the CEO, the Selection Committee is responsible for all team selections and the allocation of competitive opportunities. Team selection and FIS World Cup spot

allocation details are as described in this document; selection for major events will be published in separate document aligned with each event's specific timelines and selection requirements.

The Selection Committee shall, as its regular business:

- Select athletes to be offered positions on the National Team and within team groups (i.e. A, B and NextGen);
- Allocate HPP athletes with competitive opportunities at targeted FIS events;

The Selection Committee will consist of:

- Three voting members:
 - National Team Head Coach
 - NextGen Head Coach
 - High Performance Director (Chair – tie breaking vote)
- Non-voting members:
 - Other national Halfpipe program coaches
 - Sport Science Sport Medicine Director
 - Sport Development Manager
 - CEO

When relevant, the Selection Committee will seek input from content experts, such as the HPP Manager, mental training consultants, strength and conditioning trainers, medical team members or others.

Meetings of the Selection Committee:

- Meetings may be held for selection, informational or performance planning purposes. The committee will meet frequently through the year after training camps and major competition blocks to discuss athlete performance and progress.
- The committee will meet at pre-established timelines to discuss team selections, events selections and in some circumstances, funding decisions
- The HPD will chair meetings.
- Meetings may be held either:
 - Live:
 - i. in person,
 - ii. using technology (such as phone, web conference, etc.)
 - Non-live: using electronic means such as e-mail to share information and poll on positions.
- For live meetings: in the event one of the three voting members is not available, the Freestyle Canada CEO will appoint an equivalent replacement for that meeting.
- The committee will usually make decisions by consensus however, if a vote is necessary it will be by majority.
- Selection committee members shall abstain from voting on matters that directly affect members of their immediate families.

- Meetings of the selection committee shall be open to members of the committee, and invited guests only.

Documentation/Communication from Meetings of the Selection Committee:

- Notes from the meeting will be kept by HP staff and distributed to members of the selection committee.
- A summary of the decisions of the selection committee meetings shall be made available to interested parties on request; divisions will be notified of their availability.
- HPP staff will notify selected athletes in writing of the decisions of the meeting.

7.2 Selection Process

Team selections are for one calendar season (May through the following April).

The National Halfpipe Team qualification period runs from August 1st, through the last qualifying event of the competitive season, inclusively.

Within 30 days of the completion of the last ranking eligible competition of the season:

- The selection committee reviews the initial HPP Ranking list and determines if there are any performance considerations or mistakes in the data entry; coach input regarding skill progression is incorporated into this process. Corrections will not be made after May 15th for that selection period,
- Eligible athletes are identified in rank order.
- Athletes who would qualify for Exceptional Circumstances (i.e. injury, etc.) are identified and added to the ranking as appropriate.
- The National Team is identified and nominated in the following order:
 - a. The A group, then
 - b. The B group (including any “Performance Considerations”) then,
 - c. The NextGen group (including any “Performance Considerations”) then,
 - d. NextGen Prospects may be identified if identified by the HPP coaches.
- Nominated athletes will be officially notified and will have 10 days to accept or decline their position.

7.3 HPP Halfpipe Rankings

The HPP Halfpipe Ranking criteria is explained in detail in Appendix 1. The High Performance Director and relative FC staff will coordinate all HPP Halfpipe Rankings and calculations related to the selection of HPP teams. These rankings are presented to the selection committee for their input and consideration. Coaches also report on each athlete’s skill level and overall progression and commitment over the season.

- For an athlete to be ranked, they must normally have competed in at least three different FC eligible competitions during the current season.
- Team Selections will be based on performances from the season just completed.

- Athletes' results will be used from the selection period outline in Section 5.2 – Selection Process.

7.4 Special Ranking Considerations

The selection committee may in some cases choose to select athletes out of the initial ranking order for either team or event selections. In such case, the selection committee must record in detail the reasons for its decision. These reasons must support the program goals outlined at the beginning of this document.

Special ranking considerations include, but are not limited to the following examples:

- An athlete who is showing excellent results and increasing her or his performance results may be moved higher than their calculated ranking.
- An athlete who shows excellent physical characteristics (measurable in testing) and / or technical capability; may be moved higher than her or his calculated ranking. This is more likely to happen early in an athlete's career. Rational: in some stages of development an athlete may focus on training and not perform as well at competition.
- An athlete who has had opportunities and is not advancing towards the program goal may move lower than her or his calculated ranking and may not be selected to the program.
- When there is a relatively narrow point spread between two athletes, there is greater chance of "out of order" selection.
- An athlete with strong work ethic and commitment to training opportunities may move ahead of an athlete who has not demonstrated these traits.
- An athlete who has, in recent years, reached the podium at a major event (i.e. Olympics, World Championships and X-Games) may be selected ahead of a higher ranked athlete.

7.5 Major Games Selection Considerations

During an Olympic Winter Games or FIS World Championship qualification period, athletes who have a reasonable chance at selection may be given priority in the allocation of WC opportunities. Major Games selection criteria will be developed in a separate policy and posted on the Freestyle Canada website.

7.6 Score Anomalies

In some circumstances, there are three to four competitive, qualifying events on the same course within a short period of time, often with the same panel of judges. Circumstances such as these can skew rankings (positively or negatively). Scenarios such as these will be reviewed by the Selection Committee and may warrant out of order selections.

8. Selection Eligibility

To be eligible for selection to the National Halfpipe program, an athlete needs to meet both general and performance eligibility criteria.

8.1 General Eligibility

- An athlete must be a Freestyle Canada member in good standing;
- Have a valid Canadian passport;
- Meet the FIS age requirement to compete at FIS World Cup level events for the current FIS competitive year.

8.2 Performance Eligibility

OTP provides funding two restricted funding envelopes of program funding to Freestyle Canada:

1. Enhanced Excellence: To support athletes who have shown evidence they are on track to medal at the upcoming Olympic Winter Games and
2. NextGen: For the program that supports athletes who are showing evidence they are on track to medal at the subsequent Olympic Winter Games.

8.3 Performance Prioritization

1. A Team: A combination of Competition Benchmarks and HPP Rankings
2. B Team: A combination of Competition Benchmarks, HPP Rankings and Performance Considerations
3. NextGen: A combination of Competition Benchmarks, HPP Rankings and Performance Consideration (all skills).

8.3a "A" Group (LTAD stage: Train to Win)

Athletes are eligible for this group based on the previous year's final HPP Halfpipe Rankings and meeting the identified Competition Benchmarks:

HPP Rankings: The sum of 3 best point values (See Calculation of HPP Rankings, Appendix 1)

Competition Benchmarks for A Group:

- Women: Minimum of one (1) podium AND one (1) Top 6, coming from Tier 1 Neutral or Boosted events
- Men: Minimum of one (1) podium AND one (1) Top 8, coming from the Tier 1 Neutral or Boosted.

8.3b "B" Group (LTAD stage: Learn to Win)

Athletes are eligible for this group based on HPP Rankings + Competition Benchmarks + potential Performance Considerations. Athlete must have at least:

HPP Rankings: The sum of 3 best point values (See Calculation of HPP Rankings, Appendix 1)

Competition Benchmarks for B Group:

- Men: One Top 16 in Tier 1 level events that are valued “neutral” or “boosted” (“Diminished” Tier 1 events are not eligible).
- Women: One Top 10 in Tier 1 level events that are valued “neutral” or “boosted” (“Diminished” Tier 1 events are not eligible).

Performance Considerations for B Group:

Athletes who are demonstrating noticeable improvements in all or any of the below may be moved to a higher tier than their HPP ranking would prescribe. The framework of the performance considerations is guided by Freestyle Canada’s Gold Medal Profile Guidelines (GMP) which include, but are not limited to the following examples:

- Competitive: An athlete who is showing excellent tracking in their competition performances.
- Fitness: An athlete who shows excellent fitness characteristics (measurable in fitness testing)
- Technical: An athlete who is demonstrating noticeable improvements in their technical capability as determined by the GMP and the National Coaches assessment in training or competition.

Rational: in some stages of development an athlete may focus on training and not perform as well at competition.

- An athlete who has had ample opportunities and is not advancing towards the program goal may move lower than her or his calculated ranking and may result in not being selected to any of the teams. Written rational from the relative selection committee will be provided.
- When there is a relatively narrow point spread between two athletes, there is greater chance of “out of order” selection.
- An athlete who is tracking well with strong work ethic and commitment to training opportunities may move ahead of an athlete who has not demonstrated these traits.
- Athletes who have reached major event podiums in recent years (i.e. Olympics, World Championships and X-Games).
- If a case presents itself, the selection committee reserves the right to select athletes to the B group based on Extraordinary Circumstance clause.

8.3c National Halfpipe 'NextGen' Group (LTAD stage: Train to Compete)

NextGen team selection uses HPP rankings as well as other components. For an athlete to be eligible for selection to this group, the committee will look at the following components: HPP Rankings, Competition Benchmarks and Performance Considerations (current skills)

HPP Rankings: Ranked Top 5 on the Halfpipe HPP Rankings (excluding National A & B program athletes). Current NextGen Team athletes who don't graduate to the National Team (A & B groups) are included in the rankings as well:

The sum of 3 best point values, see Calculations of HPP Rankings Appendix 1

AND/OR

Competition Benchmarks:

- Ranked Top 3 on the Nor-Am tour, or
- Win the previous year's Canada Cup title in Halfpipe

and / or

NextGen Performance Considerations

Skill assessment can occur throughout the season by any of our National program coaches or during a specifically scheduled HPP Training camp, such as April Camp in Calgary.

The following chart is the framework in which we will assess athletes when needed. The information in the "Skills achieved" and "Score" are examples of how components are assessed.

HALFPIPE PERFORMANCE CONSIDERATION ASSESSMENT		
COMPONENT	SKILLS ACHIEVED	SCORE 1-4
CREATIVITY Variety of tricks & grabs / style	<i>good variety of grabs and direction of take-off / no style</i>	1
JUMP DD Rotations / flips Combinations, DD of rotations, variety of directions	<i>sw dub 12, dub 10, 2 dir 10</i>	2
OVERALL POTENTIAL # of years in sport / T2C foundation skills / age compared to OWG cycle & current pool of athletes / attitude – commitment / Physical condition / Mental readiness	<i>great attitude / skills not developed to next 2 OWG cycles compared to current pool / 5 yrs in sport</i>	1
TOTAL SCORE		7

SCALE GUIDE: Relative to the World Cup Circuit and the current pool of CDN athletes for selection	
Not competition ready	1
Doing in competition but not top 50% of field quality	2
Finals round quality	3
Top 5 quality	4

* Benchmark skills are outlined in Freestyle Canada’s Gold Medal Profile Guidelines.

For the NextGen Group, the HPP committee reserves the right to nominate athletes as “prospects” (or “provisional”). These prospects will be invited to train with the NextGen team but will be required to meet specific individual benchmarks by October 1st each year to confirm their place in the group.

9. FIS Event Opportunities

This section describes how Freestyle Canada allocates FIS World Cup quota spots. NorAm Quota allocation process is described in a separate document located on the Freestyle Canada website: <https://www.freestylecanada.ski/en/programs/hp/policies/>

9.1 FIS Quotas

Nations receive a fixed number of quotas spots for World Cups based on the following FIS criteria:

- *Basic Nation Quota: 1 woman / 1 man, per discipline*
- *Elite Nation Quota: Top 8 women / 10 men earned through the previous season’s FIS Base list*
 - *An updated list will be used half-way through the year, date TBD.*
- *Additional Nation Quota: (based on last year’s Final FIS rankings)*
 - *Up to 2 spots for women placed 9th – 20th*

- Up to 2 spots for MEN placed 11th – 25th
- Host Nation Quota: 3 women / 5 men
- Personal Spot WRT Finals (SS) 1 woman / 1 man*
- Personal Spot Continental Cups (5) 1 woman / 1 man per Continental Cup*
- Personal Spot World Cup Overall Winner 1 woman / 1 man per discipline*
- Personal Spot World Jr Champion 1 Man / 1 Woman per discipline*
- Additional Spots: Allocated as open spots allow with filed size caps for each discipline. Decided 38 days prior to 1st day of training.

"Personal spots" are only available to the individual who earned the spot. If that athlete does not participate, the spot will be returned to the "FIS additional spot" pool.

Freestyle Canada has been allocated the following BASE QUOTA up to a maximum team size of ten plus personal spots:

Women: 3 + Sharpe
Men: 3+ D'Artois

* Please refer to the FIS World Cup Rules on the FIS website for all details.

9.2 World Cup Spot Allocation Process and Timelines

All athletes must remain in "Good Standing" with Freestyle Canada to be considered for selection.

- a) FIS Personal spots are confirmed for all FIS World Cups in the current season
- b) "A" & "B" Group athletes will be provided spot for all FIS World Cups in the current season as quotas allow
- c) Allocation Timelines: Any open spots will be allocated on these dates:
 - a. July 1st: Southern Hemisphere August – September events
 - b. November 1st: December World Cups
 - c. December 22nd: the rest of the season World Cup events

Freestyle Canada is not required to fill all available FIS World Cup quota spots. If additional spots are available and Freestyle Canada chooses to fill them, they may be allocated to eligible HPP athletes (B Group or NextGen Group) as follows based on the dates above by the Selection Committee. The following will be considered:

- Ongoing HPP Rankings and / or
- Achieving the B-Team Performance Considerations as outlined in section 6.3b "B-Team Selection" in camps or competitions relative to the athlete's signed agreement, and / or
- Potential to qualify for major events

An athlete who is not achieving their benchmarks or performance standards may have previously allocated competitive opportunities withdrawn by the Selection Committee. A

decision to withdraw an opportunity, or funding for the opportunity that was previously granted, will never be taken lightly: all decisions such as these will be documented.

10. Exceptional Circumstances

An athlete who is progressing in their career but has a setback due to an injury, a death in the family or similar life experience could be afforded additional flexibility when it comes to HPP Halfpipe Rankings, WC spot allocation and other Freestyle Canada decisions; these situations are referred to as “Exceptional Circumstances”.

If during the current season, an athlete has missed the following number of starts due to Exceptional Circumstances:	Then the athlete may use up to the following from the previous season:
Entire season	<p>Selection period will be extended backwards to a maximum of one full FIS season.</p> <p>The athlete’s top 3 placing point values will be taken from the previous year and entered into the current year’s HPP Rankings to be considered for selections.</p>
Partial season missed, between 2 and 5 starts	<p>Considered events will be taken from the individual’s injured period and extended backwards to a maximum of one season. Events considered will be the same number and level of events missed.</p> <p>Example: if an athlete was injured during the period of January 5th to March 30th in the current season and missed two Tier 1 boosted events, FC staff will go back and select the athlete’s best two Tier 1 boosted events within January 5th – March 30th from the previous season.</p>

1. Only athletes who are members of the HPP program are eligible to use the “Exceptional Circumstances” clause. Provincial athletes who have suffered injury may be brought into the HPP through the mechanism of an “out of order” selection should sufficient evidence be available to justify.
2. The selection committee has the discretion to use the Exceptional Circumstance clause for special cases. This is more likely for athletes with a significant body of recent WC results (medals, top 6, or top 16 at major games or X-Games). This may include expanding the backwards extension of the selection period, or other adjustments to meet the special case.

3. Any injury must be evaluated and validated by a FC medical staff member. The purpose of the medical assessment is to confirm the degree of the athlete's injury and the anticipated time of the athlete's recovery.
4. The selection committee, with input from medical experts, may prevent an athlete from entering an event if the pace of the athlete's rehabilitation from injury warrants doing so.
5. It may occur that it is inappropriate for a High-Performance Program athlete, by reason of a health-related curtailment of activities, to participate in HPP training and competition activities for an entire program year. In such a situation, the following shall apply:
 - Any such determination shall be made collectively by the athlete, the athlete's personal physician, the Freestyle Canada HPD, and FC's Chief Medical Officer.
 - The athlete shall remain a member of the High-Performance Program and shall purchase a FC membership and an International Competitor's License which is part of their team fee.
 - The athlete shall remain eligible for HPP clothing and other supplier pool goods, shall continue to be promoted in the FC Media Guide, and shall continue to be eligible for Sport Canada carding and Canadian Olympic and Paralympic Sport Institute Network (COPSIN) services until financial support is depleted.
 - A rehabilitation program for the athlete shall be developed jointly, by the athlete and the FC. The rehabilitation program shall be monitored by the FC and evaluated on a regular basis. The athlete's return to full HPP participation shall be, in part, dependant on satisfactory completion of the rehabilitation program.
 - The rehabilitation program may include formal HPP training and entry into competitions, as well as physiotherapy, individual training, and other rehabilitative measures. Any formal HPP training or entry into competitions shall be for rehabilitative purposes only. Evaluations or results from such training or entry into competitions shall not be used for the ranking of the athlete for HPP Team selections.
 - The athlete shall be eligible to return to full HPP participation only after the FC determines that the rehabilitation program has been successfully completed.

11. General

Issues not otherwise covered by this document are subject to the decision of the Chief Executive Officer of FC, in consultation with the Selection Committee.

12. Appeal and Hearing Process

Freestyle Canada is bound by the mandate of our organization, and in some cases our performance partners; every attempt is made to make decisions that are in line with those parameters. In the event that an athlete feels a decision was incorrect, he or she may launch an appeal.

The purpose of an appeal is to correct any missing or incorrect information or correct any procedures that were not properly followed by the Selection Committee or HPP staff. Appeals must be conducted in accordance with the Appeal Policy established by the FC. Policy can be found on www.freestylecanada.ski

Appendix 1 – Calculation of Halfpipe HPP Rankings

Point Values are determined from the final placing an athlete receives in a recognized competition. All competitions are factored based on the Tier and Value – please see Appendix 2 for a sample Points Value Table.

The sum of 3 best point values

Eligible events and Placing Values are categorized in three different tiers as described below.

Identifying & Valuing the rating of events:

COMPONENT	DETAILS
ESTABLISHING THE HPP TIER (based on the level of the event):	
TIER 1	FIS World Cups and Major Events / Identified professional events (non-FIS)
TIER 2	FIS NorAms and identified non- FIS events
TIER 3	Canada Cup and identified non-FIS events
VALUE OF THE TIERS	Tier 1 is the highest valued events, then Tier 2. Tier 2 is valued more than Tier 3
	Each Tier can be given more detailed value: "Neutral," "Boosted" or "Diminished" based on the below guidelines
	There are 5 values within a tier: <ul style="list-style-type: none"> • Boosted: + 15 & +7.5 or • Neutral or • Diminished -7.5, & -15
PLACING VALUES	The placing values are established by the Tier and then if it is Neutral, Diminished or Boosted.
	Have a diminishing value from 1st place to last place in the event.
	There is an "R-Value" for each Tier which is the rate of diminishing value for each placing and it is relative to the value and tier of the event. Please see Appendix 2.
ESTABLISHING EVENT VALUES	All of the below is taken into consideration when determining the value of events
COURSE DETAILS	Quality of course overall; features, layout or flow of course, quality of jumps or Pipe - wall & transition
JUDGING	Quality judging throughout the heats within the phases, accurate scores and placings at the end of the event
CALIBRE OF FIELD	SKILLS: overall level and quality of skills performed in the top 10 for Women, Top 20 for Men
	COMPETITORS: did the top skiers participate? Countries attending, Current FIS rankings are referred to
	NOTE: FIS rankings can change week to week and so establishing the value will fluctuate based on the current FIS rankings
	Injured top athletes not present will also be taken into consideration
COURSE CONDITIONS	weather delays, snow conditions, wind, maintenance of venue
FIELD SIZE	total field size without DNS, # of countries
EVENT FORMAT	was the format conducive to a quality event?
	Were the heats fairly designed: size / good distribution of calibre of athletes
	# of heats in each phase
	# of runs within each heat

Ranking Criteria Notes:

- Event values will be established after the event is complete to ensure accurate values are used for final rankings
- Values of events can be changed throughout the season. This would be done to ensure the events are fairly valued comparatively with all events throughout the season
- The selection committee reserves the right to determine that an event will not be recognized for ranking or selection purposes up to two weeks prior to the first training day
- Within two weeks after completion, an event will be valued and may be shifted into a different tier to accurately value the event
- Value of events are determined as follows:
 - The HPP Selection Committee will determine the value of the Tier 1 events
 - The HPAD advisory group will value the Tier 2 and 3 events.
 - These committees may decide to add eligible events with a minimum of 3-weeks' notice prior to the first competition day of that event.

Appendix 2 – Placing Value Charts

Samples (Truncated for readability, partial chart shown to give concept of placing values)

Women

Tier 1: WC and Similar					Tier 2: FIS NORAM, Gold AFP, etc					Tier 3: Canada Cup, Silver AFP, etc
