Appendix: HPP Mogul Ranking Criteria	13

1. Preamble

This document defines the procedures used by Freestyle Canada to:

- Select athletes to the 2022 – 2023 National Mogul Team (Groups A & B)
- Select athletes to the 2022 – 2023 National NextGen Mogul Team

2021 – 2022 COVID Precision

Freestyle Canada realizes that the 2021-2022 season will again be a challenge due to the uncertainty and restrictions caused by COVID. The information provided in this document will form the framework for decision making however, the Selection Committee will have the flexibility to adjust criteria in the event that published decision processes are not possible based on the current situations.

Should there be an inadequate number of competitive opportunities ahead of select WC opportunities due to COVID restrictions, the HPP Selection Committee will look to create specific competitive opportunities for selection purposes.

If modifications are needed, affected parties will be notified as early as possible.

2. Freestyle Canada's High Performance Program Goal

To develop athletes in a safe and ethical manner, who win medals at both the Olympic Winter Games and FIS World Championships.

Freestyle Canada's high-performance staff will support, prepare and assist identified athletes in achieving their goals through a variety of mechanisms including:

- Gap Analysis which will identify each athlete's strengths and areas of improvement to prescribe appropriate technical, physical and mental training programs
- Gaining competitive experience on the International stage where they can hone their tactical and psychological skills

Athletes identified as National Team A & B Group have shown evidence they are on track to win a medal at a major event within four years

Athletes identified in the NextGen Group have shown evidence they are on track to win a medal at a major event within eight years and are progressing in their skill, physical and technical performances.

3. Definitions and Roles

Title	Acronym	Role
Freestyle Canada	FC	Governing body for Freestyle skiing in Canada
Chief Executive Officer	CEO	Top staff member of Freestyle Canada; answerable to the Board of Directors
High Performance Program	HPP	Performance stream within Freestyle Canada
High Performance Director	HPD	Leader of the HPP
International Ski Federation	FIS	Governing body for Freestyle skiing internationally
Long-Term Athlete Development	LTAD	Pathway for development of freestyle skiers from grass roots through sport for life
FIS World Cup	WC	Top FIS competition series
FIS NorAm	NorAm	Continental FIS competition series in North America
NextGen	NG	Athletes showing evidence of medal potential for the subsequent Olympic Winter Games (up to 7 years ahead)
NextGen B	NGb	Athletes put on OTP's radar to watch for the future
Own the Podium	OTP	Technical agency who makes recommendations to Sport Canada on the funding for all Canadian sports.
Sport Science Sport Medicine	SSSM	Category of performance services for medical, paramedical and applied research aimed at enhancing athlete performance

4. National Team Structure

The National Mogul Team is composed of (up to) three groups of skiers:

- The “A” group athletes who receive priority entry into WC events and the highest level of Freestyle Canada funding support
 - The “B” group athletes who receive the next priority entry into WC events and enhanced Freestyle Canada funding over NextGen athletes
- AND**
- The “NextGen” group of athletes for athlete development, tiering and funding purposes.

The selection committee will determine the National team size and each of its groups' sizes. *Team sizes may change depending on the year of the quadrennial, depth of the athlete pool as well as budget and funding considerations.*

- All team selections are for a one-year period only;
- The national team will be named by May 15th, 2022 (each year by May 15th);
- FC will strive to maintain gender equity;
- Athletes will be selected to compete in both single mogul and dual mogul events.

5. Selection Authority and Process

The selection of athletes to participate in the Freestyle Canada's Mogul HPP is the responsibility of the CEO, acting on the recommendations of the HPP Mogul Selection Committee (the "Selection Committee").

5.1 HPP Mogul Selection Committee ("Selection Committee")

Under the authority of the CEO, the Selection Committee is responsible for all team selections and the allocation of competitive opportunities. Team selection details are described in this document; FIS World Cup spot allocations and selection for major events (examples: Olympic Winter Games and World Championships) will be published in separate document aligned with each event's specific timelines and selection requirements.

The Selection Committee shall, as its regular business:

- Select athletes to be offered positions on the National Team and within team groups (i.e. A, B and NextGen);

The Selection Committee will consist of:

- Three voting members:
 - National Team Mogul Program Lead
 - WC Head Technical Coach
 - High Performance Director (Chair – tie breaking vote)
- Non-voting members:
 - Other national mogul program coaches
 - Sport Science Sport Medicine Director
 - Sport Development Manager
 - CEO

When relevant, the Selection Committee will seek input from content experts, such as the HPP Manager, mental training consultants, strength and conditioning trainers, medical team members or others.

Meetings of the Selection Committee:

- The HPD will chair meetings.
- Meetings may be held either:
 - Live:
 - i. in person,
 - ii. using technology (such as phone, web conference, etc.)
 - Non-live: using electronic means such as e-mail to share information and poll on positions.
- For live meetings: in the event one of the three voting members is not available,

the Freestyle Canada CEO will appoint an equivalent replacement for that meeting.

- The committee will usually make decisions by consensus however, if a vote is necessary, it will be by majority.
- Selection committee members shall abstain from voting on matters that directly affect members of their immediate families.
- Meetings of the selection committee shall be open to members of the committee and invited guests only.

Documentation/Communication from Meetings of the Selection Committee:

- Notes from the meeting will be kept by HP staff and distributed to members of the selection committee.
- A summary of the decisions of the selection committee meetings shall be made available to interested parties on request; provincial program leads will be notified of their availability.
- HPP staff will notify program athletes of the committee decisions. Delicate information will be relayed from the coach to the athlete directly (i.e. an athlete not being selected); summary decisions will be distributed to all affected parties.

5.2 Selection Process

Team selections are for one calendar season (May through the following April). The 2022 – 2023 National Mogul Team qualification period runs from December 1st 2021 through April 30th 2022, inclusively.

Within 30 days of the completion of the last ranking eligible competition of the season (usually the Senior Canadian Championships):

- The selection committee reviews the initial HPP Mogul Ranking list and determines if there are any special ranking considerations or mistakes in the data entry. Corrections will not be made after May 15th for that selection period (see Appendix #1)
- Eligible athletes are identified and ranked for nominations.
- Athletes who would qualify for Exceptional Circumstances (i.e. injury, etc.) are identified and ranked appropriately.
- The National Team is identified and nominated in the following order:
 - a. The A group, then
 - b. The B group, then
 - c. The Nextgen group
- The selection committee will identify any athletes who should be identified as NextGen B athletes. These athletes are identified for the purposes of tracking for OTP and are not part of the HPP.
- Nominated athlete will be officially notified, having a period of 10 days to accept or declined selection.

5.3 HPP Mogul Ranking

The HPP Mogul Ranking criteria is explained in detail in Appendix 1. The High Performance Director and the High Performance Program Manager coordinate all HPP Mogul Rankings and calculations related to the selection of HPP teams. These rankings are presented to the selection committee for their input and consideration. Coaches also report on each athlete's skill level and overall progression and commitment over the season.

- For an athlete to be ranked, they must normally have competed in at least three different FC eligible competitions during the current season.
- Athletes vying to be named to the high performance mogul program are expected to ski at the Canadian Championships where a skier-to-skier comparison is possible in front of national team coaching staff members.
- Athletes' results are used from the selection period outline in Section 5.2.

5.4 Talent Identification

Provincial level athletes who have demonstrated strong development and are trending towards NextGen group qualification may be invited to a select training opportunity that allows the national team coaching staff to work directly with the athlete to evaluate development potential. These opportunities will allow the coaches to better assess specific skills, and overall aptitude for longer term HP prospective.

5.5 Major Games Selection Considerations

During an Olympic Winter Games or FIS World Championship qualification period, athletes who have a reasonable chance of selection to that event may be given priority in the allocation of WC opportunities. Major Games selection criteria will be developed in a separate policy and posted on the Freestyle Canada website.

5.6 Score Anomalies

In some circumstances, there are three to four competitive, qualifying events on the same course within a short period of time, often with the same panel of judges. Circumstances such as these can skew rankings (positively or negatively). Scenarios such as these will be reviewed by the Selection Committee and may warrant out of order selections.

6. Eligibility

To be eligible for selection to the 2022-2023 National Mogul Team program, an athlete needs to meet both general and performance eligibility criteria.

6.1 General Eligibility

- An athlete must be a Freestyle Canada member in good standing;
- Have a valid Canadian passport;
- Meet the FIS age requirement to compete at FIS World Cup level events for 2021-2022.

6.2 Performance Eligibility

OTP provides two restricted funding envelopes of program support to Freestyle Canada:

1. Enhanced Excellence: To support athletes who have shown evidence he or she is on track to medal at the upcoming Olympic Winter Games and
2. NextGen: For the program that supports athletes who are showing evidence they are on track to medal at the subsequent Olympic Winter Games.

To be eligible for selection to the National Mogul Team, athletes are ranked on recent historical performances; these results will be used to formulate the HPP Mogul rankings. Athletes are selected to the A and B groups based on their individual mogul results; NextGen athletes are selected based on the ranking results. The following criteria outlines the performance requirements for each level:

6.2 a National Mogul Team - A Group (LTAD stage: Train to Win)

Athletes will be selected to this group based on meeting one of the following performance benchmarks:

- 1 world cup podium in a single mogul WC during the 2021-2022 (excludes dual mogul WCs)
- OR**
- 2 Top 5 results in single mogul WCs during the 2021-2022 season (excludes dual mogul WCs)

6.2 b National Mogul Team - B Group (LTAD stage: Learn to Win)

Athletes who are ranked in the top five by gender (including A Group athletes) in the Final 2021-2022 HPP Mogul Ranking will be considered for selection to this group based on meeting the following:

Men¹:

- Two top 10 placings, both within the top 2/3 of the field at 2021-2022 FIS World Cup events. Only one of the two results can come from a dual mogul event.

Women:

- Two top eight placings, both within the top 2/3 of the field at 2021-2022 FIS World Cup events. Only one of the two results can come from a dual mogul event.

**The selection committee may add athletes as discretionary spots (See: Section 11 – Special Ranking Consideration).*

6.2 c National Mogul Team - NextGen Group (LTAD stage: Train to Compete & Learn to Win)

The NextGen team size will be determined after the A & B groups of athletes are selected.

The selection committee will select athletes to this group by based on the 2021-2022 HPP Mogul Rankings.

- The selection committee may select athletes out of ranking order base on skills and/or injury status.
 - Skill assessment can occur throughout the season by any of our national program coaches or during the spring HPP training camp.
 - Skills will be assessed based on the framework outlined in Freestyle Canada’s Gold Medal Profiles.
- The selection committee may decide to reduce the team size at the point where a large drop in points occurs between athletes on the ranking list.
- NextGen athletes are expected to progress to the B or A group within four years of being first named to the team. Athletes not showing appropriate progression in performance or skill level may not be offered a renewal of their position in the NextGen Group.

6.2 d Probation

Selections of new athletes or promotion in the level of the team are considered provisional until the completion of the first training camp at which time the athlete’s performance and compliance will be reviewed to make sure they are a fit with the team.

1 Requirements are aligned to the Sport Canada AAP Senior Card criteria and consistent with the criteria for consideration from Own the Podium.

7. Competitive Opportunities

FIS provides competitive opportunities to Freestyle Canada which in turn can enter athletes into competitions sanctioned by international governing body. A separate document, the *2021 – 22 Season FIS World Cup (WC) Spot Allocation Guidelines*, identify how quota spots are distributed to Freestyle Canada HPP mogul athletes.

Please note:

- Freestyle Canada is not required to fill all FIS World Cup (or FIS World Championship) quota spots.
- World Cup opportunities will be prioritized for National A & B group athletes and then NextGen group athletes, as determined by the Selection Committee based on current team ranking or special considerations.
- Spots are contingent on athlete health and performance readiness.
- Gender split may fluctuate based on points gaps, results and development stages.
- “A group” athletes have their spots confirmed through the end of the North American WCs; the first two blocks.
- “B group” athletes have their spots confirmed through the end of the 2021 calendaryear and the Canadian hosted WCs.

8. Exceptional Circumstances

An athlete who is progressing in their career but has a setback due to an injury, a death in the family or similar life experience could be afforded additional flexibility when it comes to HPP Mogul Rankings, WC spot allocation and other Freestyle Canada decisions; these situations are referred to as “Exceptional Circumstances”.

Competitions missed due to mandatory COVID isolation/quarantine protocols will be considered “Exceptional Circumstances”.

Freestyle Canada generates an HPP Ranking score for each athlete based on the assumption that each athlete will have six data points (or “six starts”) of data available. If an athlete is unable to achieve six starts in which they were qualified to compete, results can be brought forward from the previous season to meet up to six.

An athlete cannot choose to opt out of an event and have this clause applied without meeting the requisite conditions of medical and Freestyle Canada approval in advance.

If the athlete does not have six “starts” in a season, the most recent event(s) of the same value from the previous season will be counted until a total of six starts are available for the HPP Ranking calculation (Examples: 1) Missed Canadian Championships would look back to the most recent previous season’s NorAm/ Canadian Championship level event; 2) Missed WC level start would be replaced by the last WC attended from the previous season.) If an athlete has six starts in the current season, the results from that season will be used for HPP Ranking.

Within specific parameters, the Selection Committee has the flexibility to select athletes “out of order”. Please see Section 9. Special Ranking Considerations for details.

Only athletes who are members of the HPP program are eligible to use the “Exceptional Circumstances” clause. Provincial athletes who have suffered injury may be brought into the HPP through the mechanism of an “out of order” selection should sufficient evidence be available to justify.

The Selection Committee has the discretion to use the Exceptional Circumstance clause for special cases. This is more likely for athletes with a significant body of recent WC results (medals, top 6, or top 16 at major games). This may include expanding the backwards extension of the selection period, or other adjustments to meet the special case.

Any injury must be evaluated and validated by a FC medical staff member. The purpose of the medical assessment is to confirm the degree of the athlete's injury and the anticipated time of the athlete's recovery.

The selection committee, with input from medical experts, may prevent an athlete from entering an event if the pace of the athlete's rehabilitation from injury warrants doing so.

An athlete vying for a spot in the high performance mogul program who is not capable of competing in the National Championships due to injury or other Exceptional Circumstances, must request permission, in writing from the HPD; the HPD may require medical documentation.

It may occur that some or all of a competitive season is interrupted and there are less than six available starts. When this is the case, the Selection Committee may alter the assumptions used for the ranking of the team. If this is done, it will be done to find more data for ranking purposes.

9. Injured Athlete Carryover from Previous Season

It may occur that it is inappropriate for a High-Performance Program athlete, by reason of a health-related curtailment of activities, to participate in HPP training and competition activities for an entire program year. In such a situation, the following shall apply:

- Any such determination shall be made collectively by the athlete, the athlete's personal physician, the Freestyle Canada HPD, and the FC's Chief Physician.
- The athlete shall remain a member of the High-Performance Program and shall purchase a FC membership and an International Competitor's License.
- The athlete shall remain eligible for HPP clothing and other supplier pool goods, shall continue to be promoted in the FC Media Guide, and shall continue to be eligible for Sport Canada carding and Canadian Olympic and Paralympic Sport Institute Network (COPSIN) services.
- A rehabilitation program for the athlete shall be developed jointly, by the athlete and the FC. The rehabilitation program shall be monitored by the FC and evaluated on a regular basis. The athlete's return to full HPP participation shall be, in part, dependent on satisfactory completion of the rehabilitation program.
 - The rehabilitation program may include formal HPP training and entry into competitions, as well as physiotherapy, individual training, and other rehabilitative measures.
 - Any formal HPP training or entry into competitions shall be for rehabilitative purposes only. Evaluations or results from such training or entry into competitions shall not be used for the ranking of the athlete for HPP Team selections.
 - The athlete shall be eligible to return to full HPP participation only after the FC determines that the rehabilitation program has been successfully completed.

10. Special Ranking Considerations

The selection committee may in some cases choose to select athletes out of the initial ranking order. In such case, the selection committee must record in detail the reasons for its decision. These reasons must support the program goals outlined at the beginning of this document.

Special ranking considerations include, but are not limited to the following examples:

- An athlete who is showing excellent results and increasing her or his performance results may be moved higher than their calculated ranking.
- An athlete who shows excellent physical characteristics (measurable in testing) and / or technical capability; may be moved higher than her or his calculated ranking. This is more likely to happen early in an athlete's career. Rational: in some stages of development an athlete may focus on training and not perform as well at competition.
- An athlete who has had opportunities and is not advancing towards the program goal may move lower than her or his calculated ranking.
- When there is a relatively narrow point spread between two athletes, there is greater chance of "out of order" selection.
- An athlete with strong work ethic and commitment to training opportunities may move ahead of an athlete who has not demonstrated these traits.

11. General

Issues not otherwise covered by this document are subject to the decision of the Chief Executive Officer of FC, in consultation with the selection committee.

12. Appeal and Hearing Process

Freestyle Canada is bound by the mandate of our organization, and in some cases our performance partners; every attempt is made to make decisions that are in line with those parameters. If an athlete feels a decision was incorrect, he or she may launch an appeal.

The purpose of an appeal is to correct any missing or incorrect information or correct any procedures that were not properly followed by the Selection Committee or HPP staff. Appeals must be conducted in accordance with the Appeal Policy established by the FC. Policy can be found on www.freestylecanada.ski.

Appendix: HPP Mogul Ranking Criteria

Preamble

For an athlete to be ranked, they must normally:

- Be a FC member in good standing;
- Have competed in the Canadian National Championships in the current season;
- Have competed in at least 3 different qualifying competitions during current season, unless injured.

After analyzing the results from the past 10 years of mogul competitions, Freestyle Canada has updated the Placing Results Table and will use this for the 2020 – 2021 HPP Mogul Rankings. The updated tables are included.

Eligible Competitions:

Only competitions which are recognized as part of the current year's HPP will be considered when calculating the HPP Mogul Ranking. These competitions include three tiers:

Tier 1	Tier 2	Tier 3	COVID Consideration
FIS World Championships	FIS NorAms	Apex Classic Events	Should there be an inadequate number of competitive opportunities ahead of select WC opportunities due to COVID restrictions, the HPP Selection Committee will look to create specific competitive opportunities for selection purposes.
Olympic Winter Games	Senior Canadian Championships		
FIS World Cups	FIS Junior World Championships		

Ranking criteria

Summary of final ranking score

- Scores and placings are converted to values based on the formulas outlined in the following section
 - Score values are worth 40% of the total ranking score;
 - Place values are worth 60% of the total ranking score.
- Athletes must use an average of their best 3 score values and an average of their 3 best place values
- Final ranking score: Once the average score value and the average place value is determined, the final ranking will be based on the sum of these two calculations

Establishing the values of scores and placings

- Scores: Each competition's round is used to determine score values. Most of the time, this means 3 scores are considered from each event, depending on the format of the event.

- Places: Only the final placing for each event will be considered.
- The best 3 score values from the season are averaged, subject to the limitations below:
 - The athletes 3 best score values are averaged. Single mogul qualification and final scores as well as duals qualification scores, if applicable, are eligible.
 - Out of the 3 best score values, a maximum of one (1) score value may be used from the Apex Classic competitions.
 - For the 2021 – 2022 season only, all score results from the Apex Classic competitions are eligible to be used for ranking purposes (in previous seasons, only one Apex Classic score value could be included in the 3 best score values).
- The best 3 place values are established and then averaged. Single mogul and duals are eligible, subject to the limitations below:
 - For the 2021 – 2022 season only, all placing results from the Apex Classic competitions are eligible to be used for ranking purposes (in previous seasons, only one Apex Classic placing value could be included in the 3 best placing values).
 - Dual placings are eligible in the following way:
 - World Cup/WCh/OWG Level:
 - Men & Women - Only placings in the top-16 will be used
 - NorAm/Nationals Level:
 - Men - Only placings in the top-12 will be used
 - Women - Only placings in the top-8 will be used
 - FIS Level Events:
 - Men & Women – Only placings in the top-8 will be used
- Results from foreign competitors participating in Canadian Championships and Apex Classic events will be removed from the results for HPP Mogul Ranking purposes.

Ranking formulas

- 1- Values for: Placings based ranking - see “Placing Points Tables”
 - 2- Values for: Competition scores
 - Score will be taken as percentage of the highest score in the same run;
 - The formula is: $(\text{score}/\text{winning score}) \times \text{competition level handicap}$;
 - Score value will be calculated from either qualification or finals (of single mogul); only the highest value is eligible for use in the calculation;
 - Score value is modified by competition level handicaps
-

Competition Level Handicap

	FIS World Cup, World Championships and Olympic Winter Games	NorAm / Senior Canadian Championships / Junior World Championships	Apex Classic Events
Men moguls	100	87.79	76.42
Women moguls	100	87.13	73.12

2020 - 2021 Placing Points Table – MEN

Place	Tier 1 (WC, WCh, OWG)	Tier 2 (NorAm, Canadians, etc.)	Tier 3 (Can Sel'n)
1	100	87.79	76.42
2	99.44	86.97	75.44
