

2023-2024 National Slopestyle / Big Air Team Selection Criteria

October 6th, 2022

1. Purpose

This document defines the procedures used by Freestyle Canada to:

- Annually select athletes to the National Team Slopestyle / Big Air Programs: both the World Cup and the Nextgen teams.
- Generate the High Performance Slopestyle and Big Air Program Athlete Ranking List

2. Document Scope

The information in this document relates to selection of the 2023-24 HPP Slopestyle / Big Air National Team programs; other documents which are separate that affect skiers in the HPP program and include:

- Freestyle Canada High Performance Athlete funding allocation
- World Cup Quota and Allocation Criteria
- World Championships Quota Allocation System
- World Championships Selection Criteria
- Olympic Winter Games Internal Nomination Procedures

Independent events manage their own selection and invitation processes to which Freestyle Canada is not a party.

All FC criteria can be found on the Freestyle Canada website under National Team policies:

<https://freestylecanada.ski/policies/national-team-policies/>

3. Freestyle Canada's High Performance Program Goal

Freestyle Canada's High Performance Program Mission: To develop athletes in a safe and ethical manner, who win medals at the Olympic Winter Games, the FIS World Championships and X-Games.

Freestyle Canada's high-performance staff will support, prepare and assist identified athletes in achieving their goals through a variety of mechanisms including:

- Ongoing gap analysis which will identify each athlete's strengths and areas where improvement is needed to prescribe appropriate technical, physical, and mental training programs.
- Assistance in defining and choosing appropriate lifestyle choices as they relate to high performance training and competition.
- Gaining competitive experience on the international stage where they can hone their tactical and psychological skills

4. Definitions and Acronyms

Title	Acronym	Role
High Performance Program	HPP	Performance stream within Freestyle Canada
Gold Medal Profile	GMP	“Gold Medal Profile” Identified skills for skiers at various levels of the LTAD
Long-Term Athlete Development	LTAD	Pathway for development of freestyle skiers from grass roots through sport for life
NextGen	NG	Athletes showing evidence of medal potential for the subsequent Olympic Winter Games (up to 7 years ahead)
NextGen Prospect		An athlete who is provisionally named to the NextGen training group but must meet benchmarks by October 1 of the season to confirm their place on the NextGen Team.
Sport Science Sport Medicine and Innovation	SSSMI	Category of performance services for medical, paramedical and applied research aimed at enhancing athlete performance
Own the Podium	OTP	Technical agency who makes recommendations to Sport Canada on the funding for all Canadian sports.
Slopestyle, Halfpipe, Big Air	SS, HP, BA	Acronyms for the individual disciplines
Tier 1 & 2, Boosted, Neutral or Diminished Events		See Appendix 1 for explanation
“Good Standing”		Athletes who have signed their athlete agreements, hold an active FIS license and have made appropriate arrangements to settle any outstanding debts with FC’s finance department.
Point Value		All competitions are valued based on their Tier and Rating. Point Value is a score/number pulled from a value table that reflects an athlete’s placing in a specific competition. Please see Appendix 1 for full explanation.
Major Games		The Olympic Winter Games (OWG) and the FIS World Ski Championships (WCh) are considered « Major Games »
Independent events		Independent private events that run independent of the FIS including the X-Games, Dew Tour, etc.

5. National Team Structure

Freestyle Canada strives to provide gender equity by providing equal selection opportunity for men and women; limiting factors could be but are not limited to FIS quota available, skill level and athlete pool.

5.1 National Team Size

Annually, Freestyle Canada will determine the team size and reserves the right to modify the team structure at any time to ensure quality programming to achieve the HPP goals and Freestyle Canada's mission. Group / Team sizes are determined by Freestyle Canada's Major Games strategy, FIS Quotas, FIS rules, timing in the quadrennial, the depth / skill level of the current athlete pool, available resources, and ranking point spread.

5.2 National Team Groups

OTP provides funding in two restricted and prioritized funding envelopes to Freestyle Canada:

1. Enhanced Excellence (World Cup Team): To support athletes who have shown evidence they are on track to medal, podium potential, at the upcoming Olympic Winter Games, World Championships and X-Games
2. NextGen: For the program that supports athletes who are showing evidence they are on track to medal at the subsequent Olympic Winter Games

The specific group to which an athlete is named is based on evidence of their performance capabilities and potential. World Cup Team and Next Gen Team performance requirements are outlined in section 9.

- "World Cup Team" athletes are usually targeted for entry into Tier 1 events (major and World Cup events); they have proven eligibility to receive the highest level of Freestyle Canada High Performance Athlete funding, core program support and may be eligible for Sport Canada Athlete Assistance Program (AAP). These athletes should be able to consistently achieve podium performances at major events and on the FIS World Cup circuit. A combination of Competition Result Benchmarks, HPP Rankings and Performance Considerations (see section 10.2.1) is used.
- "NextGen Team" athletes can be targeted for, but not guaranteed, entry into Tier 1 events and may also be given priority in NorAm events if needed. NextGen athletes could be eligible for Freestyle Canada High Performance Athlete funding and will benefit from enhanced core program funding and possibly the Sport Canada Athlete Assistance Program (AAP) should there be enough funding. NextGen athletes should be able to consistently achieve podium performances at FIS NorAm events and be in the top 2/3rds of the FIS World Cup circuit. A combination of Competition Benchmarks, HPP Rankings and Performance Consideration of all skills (see section 10.2.2).

A third group of athletes, "NextGen prospects", may be identified by the Selection Committee: these athletes are provisionally named to the NextGen team and will be invited to train with them until October 1st at which point, they will be assessed to

determine if they have met the required benchmarks to ratify their place on the NextGen team.

6. Selection Authority

The selection of athletes to participate in the Freestyle Canada's HPP is the responsibility of the CEO, acting on the recommendations of the HPP SS/BA Selection Committee (the "Selection Committee"). All team selections are for a one-year period; the national team will usually be named by May 15th each year.

The High-Performance Program Director coordinates all calculations related to HPP rankings and the selection criteria. These calculations are presented to the Selection Committee for their input and consideration. In addition to competition results, HPP coaches will report on each athlete's skill level, overall progression, and commitment to training over the past 12 months.

6.1 HPP SS/BA Selection Committee

Under the authority of the CEO, the Selection Committee is responsible for all team selections.

6.1.1 Selection Committee Composition

The Selection Committee is comprised of:

- Three voting members:
 - World Cup Team Lead Coach
 - NextGen Head Coach
 - High Performance Director (Chair)
- Non-voting members:
 - Other national slopestyle / big air program coaches
 - Sport Science Sport Medicine and Innovation Director
 - Sport Development Director
 - CEO

When required, the Selection Committee will seek input from content experts, such as the HPP Manager, mental training consultants, strength and conditioning trainers, medical team members or others. Selection Committee members will follow Freestyle Canada' Conflict of Interest guidelines and will abstain from participating in discussions regarding matters that directly affect members of their immediate families. Meetings of the Selection Committee shall be open to members of the committee and invited experts only.

6.1.2 Selection Committee Decision Communication

HPP staff will notify selected athletes of selection decisions. A summary of the decisions of the Selection Committee meetings shall be made available to interested parties on request; divisions will be notified of their availability.

7. Major Games Selection Consideration

During an Olympic Winter Games or FIS World Championship qualification period, athletes who have a reasonable chance at selection may be given priority in the allocation of WC opportunities. Major Games selection criteria will be developed in a separate policy and posted on the Freestyle Canada website.

8. HPP Slopestyle / Big Air Rankings

The HPP Slopestyle / Big Air HPP Ranking criteria is explained in detail in Appendix 1. The High-Performance Director will coordinate and maintain all HPP Slopestyle / Big Air Rankings and calculations related to the selection of HPP teams. These rankings are presented to the Selection Committee for their input and consideration. With the current National Team, coaches will also report on each athlete's skill level, overall progression, and commitment the past season.

- For an athlete to be ranked, they must have competed in at least three different FC eligible competitions during the season just completed unless Exceptional Circumstances apply.
- HPP Rankings will be based on performances from the season just completed
- The sum of the three best point values using the information in Appendix 1.
- Athletes' results from 2022-23 competitive season will be used to calculate SS/BA HPP Ranking; these competitions may be referred to as the "selection period".
- Result Anomalies: In some circumstances there are three to four competitive qualifying events on the same course within a short period of time, often with the same panel of judges. Circumstances such as these can skew rankings (positively or negatively). Scenarios such as these will be reviewed by the Selection Committee and may warrant out of order selections.
- Full details on the methodology of the HPP Rankings are in Appendix 1.

9. National Team Selection Process

The Selection Committee reviews the rankings and evidence from each athlete. Based on quadrennial program goals and available resources, they select athletes to the National Team programs.

9.1 Order of Team Selection

Two groups of athletes are selected to the National Team with the World Cup team selected first and the NextGen team next. Additionally, NextGen prospects may be identified.

9.2 Key Timelines

Timeframe	Activity
Within 30 days of the last eligible event	Data is audited for accuracy; Selection Committee reviews the year's Final HPP SS/BA Ranking list and determines if there are any anomalies based on performance considerations; all eligible athletes are identified.
May 15 th (each year)	Usual Team Selection date. Nominated athletes will be notified by phone and/or e-mail
Within 10 days of notification	Nominated athletes will have 10 days from initial notification to rsvp for their position on the team.

10. Selection Eligibility

To be eligible for selection to the National Slopestyle / Big Air program, an athlete needs to meet both general and performance eligibility criteria.

10.1 General Eligibility

- An athlete must be a Freestyle Canada member in good standing and
- have a valid Canadian passport and
- be an active FIS member

10.2 Performance Eligibility

10.2.1 World Cup Team:

A combination of information from the following three areas, results, rankings and performance considerations, will be used to select athletes

1. World Cup Team Competition Result Benchmarks,
 - Women: Two top 10 results achieved in Tier 1 events
 - Men: Two top 16 results, achieved in Tier 1 Neutral or Boosted events.

The caliber of field fluctuates year-to-year; the Selection Committee may adjust the above benchmarks should we not identify enough eligible athletes. These decisions will be supported by any skill assessment and other performance considerations as outlined in the next section.

2. HPP Rankings; (methodology described in section 8 details in Appendix 1)

The HPP rankings are used to determine the group of athletes who are to be considered for National Team selection based on competitive readiness, it provides

one perspective for podium potential. Considerations when reviewing the HPP Rankings:

- When there is a relatively narrow point spread between two athletes, there is greater chance of “out of order” selection.
- Exceptional Circumstances are discussed, described in section 9.
- Any competition anomalies are acknowledged and discussed if they affect the ranking order.
- Individual Performance Plan (IPP) will be considered to determine if the ranking is a true picture of podium and performance potential. In some stages of development an athlete may focus on training and not perform as well at competition to target major events or achieve a certain competitive skill for long term success. Any weak information, or skewed data, with provided evidence, in this process will not be considered a true indication of peak performance.

3. World Cup Team Performance Considerations

Results are not the only indicator of an athlete’s current skill level or future potential in Slopestyle & Big Air. The below points help guide the Selection Committee.

The framework of the performance considerations is guided by Freestyle Canada’s Gold Medal Profile guidelines (GMP) which include, but are not limited to the following examples:

- Major event eligibility: For Olympic Winter Games and sometimes World Championships, there will be specific criteria for current ranked and eligible athletes to attain, these specific situations will take priority in the initial spots allocated.
- Challenges: When an athlete is not advancing towards their goals or the FC program mission and has been given ample time and support to do so may result in not being selected.
- Fitness: Appropriate fitness level to perform difficult and necessary skills safely which are measured regularly throughout the year by the Freestyle Canada IST staff.
- Talent: An athlete who is tracking towards their identified targets, has a strong work ethic and a commitment to training opportunities may move ahead of an athlete who has not demonstrated these traits when the skill set is between them is close.

In certain cases, the Selection Committee may select athletes to the World Cup team out of order. Examples of reasons for an out-of-order selection are outlined in the Extraordinary Circumstance section (section 11). The reason for any out-of-order selection needs to be documented by the Selection committee.

10.2.2 NextGen Team:

A combination of information from the following three areas will be used to select athletes

1. NextGen Competition Benchmarks,

- Men: ranked top-3 on the FIS NorAm event specific year-end ranking or,
- Women: Ranked first on the FIS NorAm event specific year-end ranking or,
- Win the current year Canada Cup title in Slopestyle or Big Air, or,
- Junior World Champion.

2. HPP Rankings: (described in section 5 and Appendix 1)

Normally athletes are considered when they are ranked in the top 15 on the Slopestyle/Big Air HPP Rankings (excluding World Cup Team athletes). Current NextGen Team athletes who do not graduate to the World Cup Team are included in the rankings as well. The HPP rankings are used to determine the group of athletes who are to be considered for Team selection based on competitive readiness, it provides one perspective for potential. Considerations when reviewing the HPP Rankings:

- When there is a relatively narrow point spread between two athletes, there is greater chance of “out of order” selection.
- Any competition anomalies are acknowledged and discussed if they affect the ranking order.
- Individual Performance Plan (IPP) will be considered to determine if the ranking is a true picture of podium and performance potential. In some stages of development an athlete may focus on training and not perform as well at competition to target major events or achieve a certain competitive skill for long term success. Any weak information, or skewed data, with provided evidence, in this process will not be considered a true indication of peak performance.

3. NextGen Skill Assessment Consideration: to use as needed.

Some years a skill assessment may be needed to assess potential NextGen athletes to have a more in-depth profile to determine if they are ready for the NextGen Program. The assessment can occur throughout the season by any of our national program coaches or during a specifically scheduled HPP Training camp. The HPD and NextGen coaches will work with the PSO coaches to communicate on skill progressions and needs of identified athletes on an ongoing basis.

The following chart is the framework in which we will assess athletes when needed. The information in the “Skills achieved” and “Score” are examples of how components are assessed.

SS / BA SKILL ASSESSMENT		
COMPONENT	SKILLS ACHIEVED	SCORE 1-4
CREATIVITY Variety of tricks & grabs / flow through course / style	<i>good variety / not enough speed / no style</i>	1
JUMP DD Rotations / flips	<i>sw dub 12, dub 10, 2 dir 10</i>	2
RAIL SKILLS Combinations, DD of rotations, variety of directions	<i>3 diff combos / 3 4s / 2 dir on, 2 dir off</i>	3
OVERALL POTENTIAL # of years in sport / T2C foundation skills / age compared to OWG cycle & current pool of athletes / attitude – commitment / Physical condition / Mental readiness	<i>great attitude / 22yrs - skills not developed to next 2 OWG cycles compared to current pool / 5 yrs in sport</i>	1
	TOTAL SCORE	7

SCALE GUIDE: Relative to the World Cup Circuit and the current pool of CDN athletes for selection	
Not competition ready	1
Doing in competition but not top 50% of field quality	2
Finals round quality	3
Top 5 quality	4

* Benchmark skills are outlined in Freestyle Canada’s Gold Medal Profile (GMP) Guidelines. The GMP is used as a guideline, with the rate of skill progression in the NorAm and World Cup circuit, the base for comparison may change to stay current with the performance needs in team selection.

In certain cases, the Selection Committee may select athletes to the NextGen team out of order. Examples of reasons for an out-of-order selection are outlined in the Extraordinary Circumstance section (section 11). The reason for any out-of-order selection will be documented by the Selection Committee.

For the NextGen Group, the HPP committee may nominate additional athletes as “prospects” to the NextGen team. These athletes are considered “provisionally selected” and will be invited to train with the NextGen team but will be required to meet specific individual benchmarks by October 1st each year to ratify their place in that group of athletes. Athletes who do not progress should return to their club or provincial program for the competition year.

11. Exceptional Circumstance

An athlete who is progressing in their career but has a setback due to an injury, a death in the family or similar life or psychological experiences could be afforded additional flexibility when it

comes to HPP Slopestyle / Big Air Rankings, National Team Selection and other Freestyle Canada decisions; these situations are referred to as “Exceptional Circumstances”. These situations need to be supported by a FC Doctor note and/or the Selection Committee.

If during the current season, an athlete has missed the following number of starts due to Exceptional Circumstance:	Then the athlete may use up to the following from the previous season:
Entire season	Selection period will be extended backwards to a maximum of one full FIS season. The athlete’s top 3 placing point values will be taken from the previous year and entered the current year’s HPP Rankings to be considered for selections.
Partial season missed, (missed between 2 and 5 starts)	Considered events will be taken from the previous season. The same period as that athletes’ injury exists in the current season will be used in the previous season, to a maximum of one season. Events considered will be the same number and level of events missed. Example: if an athlete was injured during the period of January 5 th to March 30 th in the current season and missed two Tier 1 boosted events, FC staff will go back and select the athlete’s best two Tier 1 boosted events within January 5 th – March 30 th from the previous season.

1. Only athletes who are members of the HPP program are eligible to use the “Exceptional Circumstance” clause. Provincial athletes who have suffered injury may be brought into the HPP through the mechanism of an “out of order” selection should sufficient evidence be available to justify.
2. The Selection Committee has the discretion to use the Exceptional Circumstance clause for special cases. This is more likely for athletes with a proven contending skills or WC results (medals or skills in WC finals, at major games or X-Games). This may include expanding the backwards extension of the selection period, or other adjustments to meet the special case.
3. Any health curtailment must be evaluated and validated by a FC medical staff member. The purpose of the medical assessment is to confirm the degree of the athlete's curtailment and the anticipated time of the athlete's recovery.
4. The Selection Committee, with input from medical experts, may prevent an athlete from entering an event if the pace of the athlete’s rehabilitation from injury warrants doing so and further injury could result.

5. It may occur that it is inappropriate for a High-Performance Program athlete, by reason of a health-related curtailment of activities, to participate in HPP training and competition activities for an entire program year. In such a situation, the following shall apply:
 - Any such determination shall be made collectively by the athlete, the athlete's personal physician, the Freestyle Canada HPD, and FC's Chief Medical Officer.
 - The athlete shall remain a member of the High-Performance Program and shall purchase a FC membership and an International Competitor's License which is part of their team fee.
 - The athlete shall remain eligible for HPP clothing and other supplier pool goods, shall continue to be promoted in FC Media activities, and shall continue to be eligible for Sport Canada carding and Canadian Olympic and Paralympic Sport Institute Network (COPSIN) services until financial support is depleted.
 - A rehabilitation program for the athlete shall be developed jointly, by the athlete and the FC. The rehabilitation program shall be monitored by the FC and evaluated on a regular basis. The athlete's return to full HPP participation shall be, in part, dependant on satisfactory completion of the rehabilitation program.
 - The rehabilitation program may include formal HPP training and entry into competitions, as well as physiotherapy, individual training, and other rehabilitative measures. Any formal HPP training or entry into competitions shall be for rehabilitative purposes only. Evaluations or results from such training or entry into competitions shall not be used for the ranking of the athlete for HPP Team selections.
 - The athlete shall be eligible to return to full HPP participation only after the FC determines that the rehabilitation program has been successfully completed.

12. General

Issues not otherwise covered by this document are subject to the decision of the Chief Executive Officer of FC, in consultation with the Selection Committee.

13. Appeal and Hearing Process

Freestyle Canada is bound by the mandate of our organization, and in some cases our performance partners; every attempt is made to make decisions that are in line with those parameters. If an athlete feels a decision was incorrect, he or she may submit an appeal.

The purpose of an appeal is to correct any missing or incorrect information or correct any procedures that were not properly followed by the Selection Committee or HPP staff. Appeals must be conducted in accordance with the Appeal Policy established by the FC. Policy can be found on www.freestylecanada.ski

Appendix 1 – Calculation of Slopestyle / Big Air HPP Rankings

Point Values are determined from the final placing an athlete receives in a recognized competition. All competitions are factored based on the Tier and Value – please see Appendix 2 for a sample Points Value Table.

The sum of three best point values, within the selection period, will be calculated using one of the following combinations:

Team	Combination of Results for HPP Ranking Calculation
World Cup	<p>The sum of each athlete’s three best Point Values will be considered using one of the following four options:</p> <ul style="list-style-type: none"> • one from Slopestyle and two from Big Air • two from Slopestyle and one from Big Air • three from Slopestyle • three from Big Air (limited to a maximum 2 spots per gender for team selections)
NextGen	<p>The sum of each athlete three best Point Values will be considered (using one of the following three options):</p> <ul style="list-style-type: none"> • one from Slopestyle and two from Big Air • two from Slopestyle and one from Big Air • three from Slopestyle <p>*a NG Athlete must use a combination of Slopestyle and Big Air results – they cannot only use Big Air results</p>

Eligible events and placing values are categorized in three different tiers as described below.

Identifying & Valuing the rating of events:

COMPONENT	DETAILS
ESTABLISHING THE HPP TIER (based on the level of the event):	
TIER 1	FIS World Cups and Major Events / Identified independent events
TIER 2	FIS NorAms and identified Independent
TIER 3	Canada Cup and identified independent events
VALUE OF THE TIERS	Tier 1 is the highest valued events, then Tier 2. Tier 2 is valued more than Tier 3
	Each Tier can be given more detailed value: "Neutral, "Boosted" or "Diminished" based on the below guidelines
	There are 5 values within a tier: <ul style="list-style-type: none"> • Boosted: + 15 & +7.5 or • Neutral or • Diminished -7.5, & -15
PLACING VALUES	The placing values are established by the Tier and then if it is Neutral, Diminished or Boosted.
	Have a diminishing value from 1st place to last place in the event.
	There is an "R-Value" for each Tier which is the rate of diminishing value for each placing, and it is relative to the value and tier of the event. Please see Appendix 2.
ESTABLISHING EVENT VALUES	All of the below is taken into consideration when determining the value of events
COURSE DETAILS	Quality of course overall; features, layout or flow of course, quality of jumps or Pipe - wall & transition
JUDGING	Quality judging throughout the heats within the phases, accurate scores and placings at the end of the event
CALIBRE OF FIELD	SKILLS: overall level and quality of skills performed in the top 10 for Women, Top 20 for Men
	COMPETITORS: did the top skiers participate? Countries attending, Current FIS rankings are referred to
	NOTE: FIS rankings can change week to week and so establishing the value will fluctuate based on the current FIS rankings
	Injured top athletes not present will also be taken into consideration
COURSE CONDITIONS	weather delays, snow conditions, wind, maintenance of venue
FIELD SIZE	total field size without DNS, # of countries
EVENT FORMAT	was the format conducive to a quality event?
	Were the heats fairly designed: size / good distribution of calibre of athletes
	# of heats in each phase
	# of runs within each heat

Ranking Criteria Notes:

- Event values will be established after the event is complete to ensure accurate values are used for final rankings
- Values of events can be changed throughout the season. This would be done to ensure the events are fairly valued comparatively with all events throughout the season
- The Selection Committee reserves the right to determine that an event will not be recognized for ranking or selection purposes up to two weeks prior to the first training day
- Within two weeks after completion, an event will be valued and may be shifted into a different tier to accurately value the event
- Value of events are determined as follows:
 - The HPP Selection Committee will determine the value of the Tier 1 events
 - The HPAD advisory group will value the Tier 2 and 3 events.
 - These committees may decide to add eligible events with a minimum of 3-weeks' notice prior to the first competition day of that event.

Appendix 2 – Placing Value Charts

Samples (Truncated for readability, partial chart shown to give concept of placing values)

Women
