1. Purpose

This document defines the procedures used by Freestyle Canada to:

- Generate the Halfpipe HP Ranking list
- Select athletes to the National Halfpipe Program (World Cup and NextGen teams)

2. Document Scope

The information in this document relates to selection of the 2024-25 HPP Halfpipe National Team programs; other documents which are separate that affect skiers in the HPP program include:

- Freestyle Canada High Performance Athlete funding allocation
- World Cup Quota and Allocation Criteria
- World Championships Quota Allocation System
- World Championships Selection Criteria
- Olympic Winter Games Internal Nomination Procedures

Independent events (X-Games, Dew Tour) are independent of FIS and manage their own athlete invitation processes to which Freestyle Canada is not a party.

All Freestyle Canada criteria can be found on the Freestyle Canada website under National Team policies: <https://freestylecanada.ski/policies/national-team-policies/>

3. Freestyle Canada's High Performance Program Goal

Freestyle Canada's Mission: To develop athletes in a safe and ethical manner, who win medals at the Olympic Winter Games, the FIS World Championships and X-Games.

Freestyle Canada's high-performance staff will support, prepare, and assist identified athletes in achieving their goals through a variety of mechanisms including:

- Ongoing gap analysis which will identify each athlete's strengths and areas where improvement is needed to prescribe appropriate technical, physical, and mental training programs.
- Assistance in defining and choosing appropriate lifestyle choices as they relate to high performance training and competition.
- Gaining competitive experience on the international stage where they can hone their tactical and psychological skills.

4. Definitions and Roles

| Title | Acronym | Role |
|---|----------------|---|
| Freestyle Canada | FC | Governing body for Freestyle skiing in Canada |
| High Performance Program | HPP | Performance stream within Freestyle Canada |
| Gold Medal Profile | GMP | “Gold Medal Profile” Identified skills for skiers at various levels of the Long Term Athlete Development |
| FIS World Cup | WC | Top FIS competition series |
| FIS NorAm | NorAm | Continental FIS competition series in North America |
| International Ski Federation | FIS | Governing body for Freestyle skiing internationally |
| NextGen | | Athletes showing evidence of medal potential for the subsequent Olympic Winter Games (up to 7 years ahead) |
| NextGen Prospect | | Athletes put on OTP’s radar to watch for the future |
| Sport Science Sport Medicine | SSSM | Category of performance services for medical, paramedical, and applied research aimed at enhancing athlete performance |
| Own the Podium | OTP | Technical agency who makes recommendations to Sport Canada on the funding for all Canadian sports. |
| Canada Cup | | National competition circuits (Slopestyle, Halfpipe and Big Air) |
| Tier Events / Boosted, Neutral or Diminished Events | | See Appendix 1 for explanation |
| Point Value | | All competitions are valued based on their Tier and Rating. Point Value is a score/number pulled from a value table that reflects an athlete’s placing in a specific competition. Please see Appendix 1 for full explanation. |
| Major Games | | The Olympic Winter Games (OWG) and the FIS World Ski Championships (WCh) are considered « Major Games » |
| Independent events | | Private events that run independent of the FIS including the X-Games, Dew Tour, etc. |

5. National Team Structure

Freestyle Canada strives to provide gender equity by providing equal selection opportunity for men and women; limiting factors could be but are not limited to FIS quota available, skill level and athlete pool.

Annually, Freestyle Canada will determine the team size and reserves the right to modify the team structure at any time to ensure quality programming to achieve the HPP goals and Freestyle Canada's mission. Group / Team sizes are determined by:

- FIS Quota and FIS rules
- the year of the quadrennial
- depth of athlete pool
- skill level of athletes
- ranking point spreads
- major games strategy
- funding fluctuations

The specific group to which an athlete is named depends on their performance capabilities and potential. World Cup team and Next Gen team: details are outlined in section 7.4.

- "World Cup Team" athletes are targeted for Tier 1 events (major and World Cup events); as well, they have proven eligibility to receive the highest level of Freestyle Canada High Performance Athlete funding, core program support and the Sport Canada Athlete Assistance Program (AAP).

Athletes identified as National World Cup Team have shown evidence, they are on track to win a medal at a major event within four years. These athletes should be able to consistently achieve podium performances at major events and on the FIS World Cup circuit.

- "NextGen Team" athletes also targeted for, but not guaranteed, entry into Tier 1 events and may also be given priority in NorAm events if needed. NextGen athletes could be eligible for Freestyle Canada High Performance Athlete funding and will benefit from enhanced core program funding and possibly the Sport Canada Athlete Assistance Program (AAP) should there be enough funding.

Athletes identified in the NextGen Group have shown evidence they are on track to win a medal at a major event within eight years. NextGen athletes should be able to consistently achieve podium performances at FIS NorAm events and be in the top 2/3rds of the FIS World Cup circuit.

6. Selection Authority and Process

The selection of athletes to participate in the Freestyle Canada's HPP is the responsibility of the Chief Executive Officer (CEO), acting on the recommendations of the Halfpipe HP Committee (the "Halfpipe HP Committee").

The High-Performance Director (HPD) and other FC staff members coordinate all calculations related to Halfpipe HP Rankings. These calculations are presented to the Halfpipe HP Committee as a starting point for their consideration. In addition to competition results, HPP coaches will report on each athlete's skill level, overall progression, and commitment to training over the past 12 months.

All team selections are for a one-year period only; the national team will be named by May 15th each year. FC will make best efforts to maintain gender equity in their HPP selection.

6.1 Halfpipe HP Committee

Under the authority of the CEO, the Halfpipe HP Committee is responsible for all team selections (WC and NG). In addition to team selections, the committee will also allocate competitive opportunities to HPP athletes for targeted FIS events.

The Halfpipe HP Committee will consist of:

- Three voting members:
 - National Team Head Coach
 - NextGen Head Coach
 - High Performance Director (Chair – tie breaking vote)
- Non-voting members:
 - Other national Halfpipe program coaches
 - Sport Science Sport Medicine Director
 - Sport Development Director
 - CEO
 - Other content experts as relevant.

6.2 National Team Selection Process

Timelines:

| | |
|------------------|--|
| Team Selections: | Normally by May 15 th each year. Team selections are for one calendar season (May through the following April). |
| Valued Events: | FIS competitions season July 1 – April 30 each year, see Appendix 1 for details on classification of events. |

*Exceptional Circumstances may apply and the cases by case specific timelines will apply accordingly.

Within 30 days of the last valued event of the season:

- HP Rankings:
 - a. The Halfpipe HP Ranking lists are reviewed to expose any entry or calculation errors.

- b. The Halfpipe HP Committee:
 - reviews the year's Final HPP Halfpipe Ranking list to determine if there are any anomalies based on performance considerations.
 - provides input regarding skill progression that is incorporated into this process.
- c. Corrections will not be made after May 1st for that selection period.
 - Eligible athletes are identified.
 - Athletes who qualify to be considered under the Exceptional Circumstances clause (section 8) (i.e., injury, etc.) are identified and added to the list of eligible athletes as appropriate.
- The National Team is identified and nominated in the following order:
 - a. The World Cup Team, then
 - b. The NextGen group, then,
 - c. NextGen prospects may be identified by the HPP coaches.
- Nominated athletes will be officially notified. Nominated athletes will have 10 days from initial notification to accept or decline their position.

6.3 HP Halfpipe Rankings

The Halfpipe HP Ranking criteria is explained in detail in Appendix 1. The High-Performance Director and relative FC staff will coordinate and maintain all HPP Halfpipe Rankings and calculations related to the selection of HPP teams. These rankings are presented to the Halfpipe HP Committee for their input and consideration. With the current National Team, coaches will also report on each athlete's skill level, overall progression, and commitment the past season.

- For an athlete to be ranked, they must have competed in at least three different FC eligible competitions during the current season unless Exceptional Circumstances apply.
- HP Rankings will be based on results from the season just completed.
- Athletes' results will be used from the selection period outlined in 6.2.

6.4 Major Games Selection Considerations

During an Olympic Winter Games or FIS World Championship qualification period, athletes who have a reasonable chance at selection may be given priority in the allocation of WC opportunities. Major Games selection criteria will be developed in a separate policy and posted on the Freestyle Canada website.

6.5 Score Anomalies

In some circumstances there are three to four competitive qualifying events on the same course within a short period of time, often with the same panel of judges. Circumstances such as these can skew rankings (positively or negatively). Scenarios such as these will be reviewed by the

Halfpipe HP Committee and may warrant out of rank order selections.

7. Selection Eligibility

To be eligible for selection to the National Halfpipe program, an athlete needs to meet both general and performance eligibility criteria.

a. General Eligibility

- i. An athlete must be a Freestyle Canada member in good standing¹ and
 - ii. must be able to obtain a Canadian passport and
 - iii. be an active FIS member.
- _____
- iv. If requested by Freestyle Canada, agree to be subject to any proceedings taken under the UCCMS, including, without limitation, signing a UCCMS Participant consent form and accepting the jurisdiction of the Office of the Sport Integrity Commissioner/Abuse-Free Sport.

b. Performance Eligibility

OTP provides funding in two restricted funding envelopes of program funding to Freestyle Canada:

1. Enhanced Excellence: To support athletes who have shown evidence they are on track to medal at the upcoming Olympic Winter Games, World Championships and X-Games
2. NextGen: For the program that supports athletes who are showing evidence they are on track to medal at the subsequent Olympic Winter Games.

c. Performance Prioritization

1. World Cup Team: A combination of Competition Result Benchmarks, HP Rankings and Performance Considerations all of which are outlined in section 7.4.
2. NextGen: A combination of Competition Benchmarks, HP Rankings and Performance Consideration (all skills).

d. World Cup Team (Enhanced Excellence, training for podium within 4 years)

Athletes are eligible for this group based the following:

HP Rankings:

(See Calculation of HP Rankings, Appendix 1)

The HP Rankings are used to determine the group of athletes who are to be considered for selection based on competitive readiness, it provides one perspective for podium potential.

¹ Athletes who have signed their athlete agreements, hold an active FIS license, and have made appropriate arrangements to settle any outstanding debts with FC's finance department.

- When there is a relatively narrow point spread between two athletes, there is a greater chance of “out of rank order” selection.
- Exceptional Circumstances are discussed, as defined in section 7.
- Any competition anomalies are acknowledged and discussed if they affect the ranking order.
- Individual’s Performance Plan (IPP) will be considered to determine if the ranking is a true picture of podium and performance potential. In some stages of development an athlete may focus on training and not perform as well at competition to target major events or achieve a certain competitive skill for long term success. Any weak information, or skewed data, with provided evidence, in this process will not be considered a true indication of peak performance.

Competition Result Benchmarks for World Cup Team:

- Women: Two top 12 results coming from Tier 1 events
- Men: Two top 16 results, coming from Tier 1

The caliber of field the Halfpipe field could change greatly year to year and is unpredictable at the time of writing these criteria. The Halfpipe HP Committee may adjust when the above benchmarks should we not identify enough eligible athletes. These decisions will be supported by any skill assessment and other performance considerations as outlined in the next section.

Performance Considerations for World Cup Team:

Results are not the only indicator of an athlete’s current skill level or future potential in Halfpipe. The below points are some principles to help guide the selection process to provide full perspective:

The framework of the performance considerations is guided by Freestyle Canada’s Gold Medal Profile Guidelines (GMP) which include, but are not limited to the following examples:

- Talent / Skill Benchmark: An athlete who is tracking towards their identified targets, has a strong work ethic and a commitment to training opportunities may move ahead of an athlete who has not demonstrated these traits when the skill set is between them is close.
 - Technical Acrobatic Skill Benchmarks:
 - Men: one left double and one right double
 - Women: one inverted skill, one switch skill, and a 900, all done successfully above the lip.
- Major event eligibility: For Olympic Winter Games and sometimes World

Championships. there will be specific criteria for current ranked and eligible athletes to attain, these specific situations will take priority in the initial spots allocated.

- Challenges: When an athlete is not advancing towards their goals or the FC program mission and has been given ample time and support to do so may result in not being selected.
- Fitness: Appropriate fitness level to perform difficult skills safely,
 - fitness levels are measured regularly throughout the year.

If a case presents itself, the Halfpipe HP Committee reserves the right to select athletes to the World Cup Team based on Extraordinary Circumstance clause.

e. 'NextGen' Team (long term medal potential, within 8 years)

For an athlete to be considered for selection for the 2024-2025 NextGen team, the Halfpipe HP Committee will consider the following:

Halfpipe Skill Assessment Considerations

This skill assessment can occur throughout the season by any FC National program coach or during a specifically scheduled HPP Training camp. The NextGen coaches will work with the PSO coaches to communicate on skill progressions and needs of identified athletes on an ongoing basis.

The following chart is the framework in which we will assess athletes when needed. The information in the "Skills achieved" and "Score" are examples of how components are assessed.

| SCALE GUIDE: | | |
|--|-------------|---------|
| Comparable to current top performers | Consistency | |
| Not competition ready | 1 | 0-49% |
| Doing in competition but not quality of top 50% of field | 2 | 50-69% |
| Doing in competition, top 50% of field | 3 | 70-79% |
| Finals round quality | 4 | 80-89% |
| Top 5 quality | 5 | 90-100% |

| HALFPIPE SKILL ANALYSIS | | | | | | | | | | | | | | | | | |
|-------------------------|-----------------------|----------------------|------|-----------|-------|------------------------------------|-------------------------------------|------------|-------------|--------------------------|---------------------------|--------------|---------------|---------------------------|----------------------------|-------------|--------------|
| NAME | Skiing Stance Forward | Skiing Stance Switch | Line | Amplitude | Grabs | Spins Left 360-900 (down the pipe) | Spins Right 360-900 (down the pipe) | Flare Left | Flare Right | Off Axis Left (540-1080) | Off Axis Right (540-1080) | Allyoop Left | Allyoop Right | Switch Spins Left 360-900 | Switch Spins Right 360-900 | Total score | Athlete rank |
| EXAMPLE | | | | | | | | | | | | | | | | | |

* Benchmark skills are outlined in Freestyle Canada’s Gold Medal Profile (GMP) Guidelines. The GMP is used as a guideline, with the rate of skill progression in the NorAm and World Cup circuit along with our Canadian high performance athlete pool skill set, the base for comparison may change to stay current with the performance needs in team selection.

HP Rankings:

Athletes will be considered for selection if ranked in the top ten (10) for men and top eight (8) for women in the previous year's Final Halfpipe HP Rankings (excluding World Cup Team athletes). Current NextGen Team athletes who do not graduate to the World Cup Team are included in the rankings as well. The HP Rankings are the sum of the athlete three (3) best point values, see Appendix 1 for full ranking criteria.

AND/OR

Competition Result Benchmarks:

- Ranked top five (5) Men or top three (3) Woman on the Nor-Am tour, or
- Jr World Champion

For the NextGen Group, the HP Committee reserves the right to nominate athletes as "prospects" (or "provisional"). any potential prospects will be invited to train with the NextGen team but will be required to meet specific individual benchmarks by November 30th each year to confirm their place in the group.

8. Exceptional Circumstances

An athlete who is progressing in their career but has a setback due to an injury, a death in the family or similar life experience could be afforded additional flexibility when it comes to HPP Halfpipe Rankings, WC spot allocation and other Freestyle Canada decisions; these situations are referred to as "Exceptional Circumstances".

| If during the current season, an athlete has missed the following number of starts due to Exceptional Circumstances: | Then the athlete may use up to the following from the previous season: |
|--|---|
| Entire season | <p>Selection period will be extended backwards to a maximum of one full FIS season.</p> <p>The athlete's top 3 placing point values will be taken from the previous year and entered the current year's HP Rankings to be considered for selections.</p> |
| Partial season missed, between 2 and 5 starts | <p>Considered events will be taken from the individual's injured period and extended backwards to a maximum of one season. Events considered will be the same number and level of events missed.</p> <p>Example: if an athlete was injured during the period of January 5th to March 30th in the current season and missed two Tier 1 boosted events, FC staff will go back</p> |
| | <p>and select the athlete's best two Tier 1 boosted events within January 5th – March 30th from the previous season.</p> |

1. Only athletes who are members of the HPP program are eligible to use the "Exceptional Circumstances" clause. Provincial athletes who have suffered injury may be brought into the HPP through the mechanism of an "out of rank order" selection should sufficient evidence be available to justify.
2. The Halfpipe HP Committee has the discretion to use the Exceptional Circumstance clause for special cases. This is more likely for athletes with a significant body of recent WC results (medals, top 6, or top 16 at major games or X-Games). This may include expanding the backwards extension of the selection period, or other adjustments to meet the special case.
3. Any injury must be evaluated and validated by a FC medical staff member. The purpose of the medical assessment is to confirm the degree of the athlete's injury and the anticipated time of the athlete's recovery.
4. The Halfpipe HP Committee, with input from medical experts, may prevent an athlete from entering an event if the pace of the athlete's rehabilitation from injury warrants doing so.
5. It may occur that it is inappropriate for a High-Performance Program athlete, by reason of a health-related curtailment of activities, to participate in HPP training and competition activities for an entire program year. In such a situation, the following shall apply:
 - Any such determination shall be made collectively by the athlete, the athlete's personal physician, the Freestyle Canada HPD, and FC's Chief Medical Officer.

- The athlete shall remain a member of the High-Performance Program and shall purchase a FC membership and an International Competitor's License which is part of their team fee.
- The athlete shall remain eligible for HPP clothing and other supplier pool goods, shall continue to be promoted in the FC Media Guide, and shall continue to be eligible for Sport Canada carding and Canadian Olympic and Paralympic Sport Institute Network (COPSIN) services until financial support is depleted.
- A rehabilitation program for the athlete shall be developed jointly, by the athlete and the FC. The rehabilitation program shall be monitored by the FC and evaluated on a regular basis. The athlete's return to full HPP participation shall be, in part, dependent on satisfactory completion of the rehabilitation program.
- The rehabilitation program may include formal HPP training and entry into competitions, as well as physiotherapy, individual training, and other rehabilitative measures. Any formal HPP training or entry into competitions shall be for rehabilitative purposes only. Evaluations or results from such training or entry into competitions shall not be used for the ranking of the athlete for HPP Team selections.

- The athlete shall be eligible to return to full HPP participation only after the FC determines that the rehabilitation program has been successfully completed.

9. General

Issues not otherwise covered by this document are subject to the decision of the CEO of FC, in consultation with the Halfpipe HP Committee.

10. Appeal and Hearing Process

FC is bound by the mandate of our organization, and in some cases our performance partners; every attempt is made to make decisions that are in line with those parameters. If an athlete feels an error was made in the application of this criteria, they should immediately contact their HPP Director. If the situation is not resolved through this discussion an athlete may file an appeal through the regular FC process (Appeal Policy).

Appendix 1 – Calculation of Halfpipe HP Rankings

Point Values are determined from the final placing an athlete receives in a recognized competition. All competitions are factored based on the Tier and Value – please see Appendix 2 for a sample Points Value Table.

The sum of 3 best point values, within the selection period, will be calculated using one of the following combinations:

| Group | Combination of results |
|----------------|--|
| World Cup Team | The sum of each athlete's three best Point Values from Tier 1 events |
| NextGen Team | The sum of each athlete three best Point Values from Tier 2 and 3 events |

Eligible events and placing values are categorized in three different tiers as described below.

Identifying & valuing the rating of events:

| COMPONENT | DETAILS |
|---|---|
| ESTABLISHING THE HPP TIER (based on the level of the event): | |
| TIER 1 | FIS World Cups and Major Events / Identified independent events |
| TIER 2 | FIS NorAms and identified Independent |
| TIER 3 | Canada Cup and identified Independent events |
| VALUE OF THE TIERS | Tier 1 is the highest valued events, then Tier 2. Tier 2 is valued more than Tier 3 |
| | Each Tier can be given more detailed value: "Neutral, "Boosted" or "Diminished" based on the below guidelines |
| | There are 5 values within a tier: <ul style="list-style-type: none"> • Boosted: + 15 & +7.5 or • Neutral or • Diminished -7.5, & -15 |
| PLACING VALUES | The placing values are established by the Tier and then if it is Neutral, Diminished or Boosted. |
| | Have a diminishing value from 1st place to last place in the event. |
| | There is an "R-Value" for each Tier which is the rate of diminishing value for each placing and it is relative to the value and tier of the event. Please see Appendix 2. |
| ESTABLISHING EVENT VALUES | All of the below is taken into consideration when determining the value of events |
| COURSE DETAILS | Quality of course overall; features, layout, or flow of course, quality of jumps or Pipe - wall & transition |
| JUDGING | Quality judging throughout the heats within the phases, accurate scores, and placings at the end of the event |
| CALIBRE OF FIELD | SKILLS: overall level and quality of skills performed in the top 10 for Women, Top 20 for Men |
| | COMPETITORS: did the top skiers participate? Countries attending, Current FIS rankings are referred to |
| | NOTE: FIS rankings can change week to week and so establishing the value will fluctuate based on the current FIS rankings |
| | Injured top athletes not present will also be taken into consideration |
| COURSE CONDITIONS | weather delays, snow conditions, wind, maintenance of venue |
| FIELD SIZE | total field size without DNS, # of countries |
| EVENT FORMAT | was the format conducive to a quality event? |
| | Were the heats fairly designed: size / good distribution of calibre of athletes |
| | # of heats in each phase |
| | # of runs within each heat |

For 2023 – 2024 Ranking the following events will be considered (subject to change with appropriate notice):

| | |
|--------|---|
| TIER 1 | FIS World Cups, X-Games and Dew Tour |
| TIER 2 | FIS NorAms, Junior World Championships and the 2024 Youth Olympic Games |
| TIER 3 | Canada Cups, Canadian Championships and the Futures Tour (Copper, Dec 2023) |

Ranking Criteria Notes:

- Event values will be established after the event is complete to ensure accurate values are used for final rankings
- Values of events can be changed throughout the season. This would be done to ensure the events are fairly valued comparatively with all events throughout the season
- The Halfpipe HP Committee reserves the right to determine that an event will not be recognized for ranking or selection purposes up to two weeks prior to the first training day
- Within two weeks after completion, an event will be valued and may be shifted into a different tier to accurately value the event.
- Value of events are determined as follows:
 - Halfpipe HP coaches will determine the value of the Tier 1 and Tier 2 events.
 - The High Performance Athlete Development advisory group, guided by provincial coaches, will value Tier 3 events.
 - These committees may decide to add eligible events with a minimum of three-weeks' notice prior to the first competition day of that event.

Appendix 2 – Placing Value Charts

Samples (Truncated for readability, partial chart shown to give concept of placing values)

Women

| Tier 1: WC and Similar | | | | | Tier 2: FIS NORAM, Gold AFP, etc | | | | | Tier 3: Canada Cup, Silver AFP, etc | | | | | |
|------------------------|--------------|--------------|--------|--------|----------------------------------|--------------|--------------|--------|--------|-------------------------------------|--------------|--------------|--------|--------|-----------|
| ADJUSTMENT | | EVENT VALUE | | | ADJUSTMENT | | EVENT VALUE | | | ADJUSTMENT | | EVENT VALUE | | | |
| +15 | | 1000 | | | +15 | | 776 | | | +15 | | 575 | | | |
| +7.5 | | 968 | | | +7.5 | | 726 | | | +7.5 | | 538 | | | |
| | Bench | 900 | | | | Bench | 675 | | | | Bench | 500 | | | |
| -7.5 | | 833 | | | -7.5 | | 624 | | | -7.5 | | 463 | | | |
| -15 | | 765 | | | -15 | | 574 | | | -15 | | 425 | | | |
| R Value | | 0.020 | | | R Value | | 0.020 | | | R Value | | 0.020 | | | |
| +15 | +7.5 | Bench | -7.5 | -15 | +15 | +7.5 | Bench | -7.5 | -15 | +15 | +7.5 | Bench | -7.5 | -15 | test Plac |
| Points | Points | Points | Points | Points | Points | Points | Points | Points | Points | Points | Points | Points | Points | Points | |
| 1000 | 968 | 900 | 833 | 765 | 776 | 726 | 675 | 624 | 574 | 575 | 538 | 500 | 463 | 425 | 1 |
| 980 | 948 | 882 | 816 | 750 | 761 | 711 | 662 | 612 | 562 | 564 | 527 | 490 | 453 | 417 | 2 |
| 960 | 929 | 864 | 800 | 735 | 746 | 697 | 648 | 600 | 551 | 552 | 516 | 480 | 444 | 408 | 3 |
| 941 | 911 | 847 | 784 | 720 | 731 | 683 | 635 | 588 | 540 | 541 | 506 | 471 | 435 | 400 | 4 |
| 922 | 892 | 830 | 768 | 706 | 716 | 669 | 623 | 576 | 529 | 530 | 496 | 461 | 427 | 392 | 5 |
| 904 | 875 | 814 | 753 | 691 | 702 | 656 | 610 | 564 | 519 | 520 | 486 | 452 | 418 | 384 | 6 |
| 886 | 857 | 797 | 737 | 678 | 688 | 643 | 598 | 553 | 508 | 509 | 476 | 443 | 410 | 376 | 7 |
| 868 | 840 | 781 | 723 | 664 | 674 | 630 | 586 | 542 | 498 | 499 | 467 | 434 | 402 | 369 | 8 |
| 851 | 823 | 766 | 708 | 651 | 660 | 617 | 574 | 531 | 488 | 489 | 457 | 425 | 393 | 362 | 9 |
| 834 | 807 | 750 | 694 | 638 | 647 | 605 | 563 | 521 | 478 | 479 | 448 | 417 | 386 | 354 | 10 |
| 817 | 791 | 735 | 680 | 625 | 634 | 593 | 552 | 510 | 469 | 470 | 439 | 409 | 378 | 347 | 11 |
| 801 | 775 | 721 | 667 | 613 | 622 | 581 | 540 | 500 | 459 | 460 | 430 | 400 | 370 | 340 | 12 |
| 785 | 759 | 706 | 653 | 600 | 609 | 569 | 530 | 490 | 450 | 451 | 422 | 392 | 363 | 334 | 13 |
| 769 | 744 | 692 | 640 | 588 | 597 | 558 | 519 | 480 | 441 | 442 | 413 | 385 | 356 | 327 | 14 |
